

Biwi quality label

RUBBER WATCH-STRAPS

Biwi manufactures high quality products answering the most demanding specifications. Our technical department develops materials which are approved by the watch-making industry's technical specifications. The rubber formulas are certified to the international FDA and BGVV norms, being highly severe in terms of bio-compatibility and skin contact requirements.

We are able to propose you a chart of various colours which have been specifically developed for this purpose.

Three ranges of quality cover the market's needs.

Synthetic rubber TPE watch-strap

- Standard quality material according to the watch-industry criteria
- Good mechanical, esthetical and chemical properties
- Material transformed through thermo-melting
- Possible colouring development in the mass
- Checking as per AQL finishing standard
- First-rate price positioning

Your future watch-strap is to be found in one of those categories.

Therefore, please feel free to contact us !
Our commercial team stays at your disposal to advise you.
