

JEWELLERY

Rubber and plastic design

THE PERFECT TECHNOLOGY

Biwi SA develops and manufactures high quality products answering the most demanding specifications.

The projects are being confidentially handled and we offer a developing structure together with a complete integrated production.

Development

Modelling

Prototyping

Tools' conception
and manufacturing

Production of pieces

Assembling

Our technical department's selected materials answer the technical specifications of the products. The rubber formulas are certified to the international FDA and BGVV norms, norms which are being highly severe in terms of biocompatibility and skin contact requirements.

The rubber mixings are available in various colours and we can propose you a wide range of colours, specifically developed for this purpose.

Just imagine the most extravagant parts...

Our engineers will bring the solution to your project in order to realize it.
